CONSULTORES

GPI is composed of an interdisciplinary team of professionals with extensive experience in business development, project formulation, evaluation, and investment financing.

SERVICES

The solutions offered by GPI Consultants enable the management of investment projects in various sectors, ranging from mining and industry to technology and agribusiness.

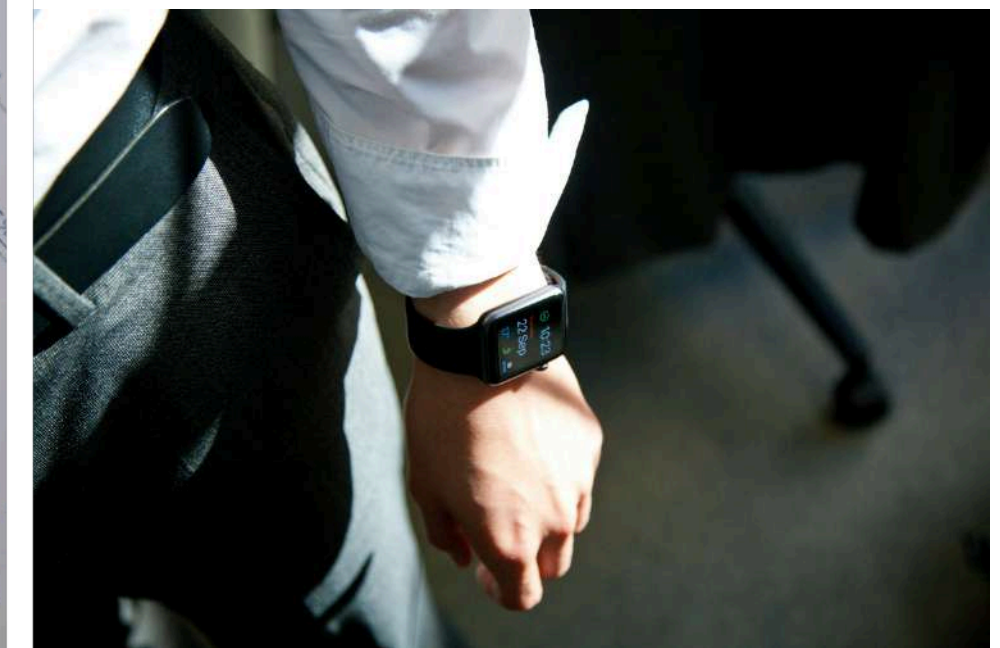

Our comprehensive approach ensures efficient planning, rigorous control, and continuous monitoring to maximize the success of each project.

We have a broad network of contacts and analytical tools that allow us to develop effective strategies and secure funding from national and international organizations, supporting the sustainable growth of our clients.

RESOURCES AND CAPABILITIES

GPI has professionals from various disciplines, enabling us to interact with both legal technical teams and the leadership teams of the companies that request our services.

BUSINESS DEVELOPMENT AND DUE DILIGENCE

We provide comprehensive consulting services to identify new opportunities, expand markets, and optimize performance in competitive and ever-changing environments. We evaluate legal, technical, and financial aspects to reduce risks and maximize opportunities for success.

PROJECT FORMULATION AND EVALUATION

We conduct feasibility studies and financial-economic evaluations to ensure the profitability and sustainability of the project.

CONSTRUCTION SERVICES DEVELOPMENT

We support every stage of civil works, from initial planning to final delivery, guaranteeing quality and satisfaction throughout the process.

FINANCIAL CONSULTING

We offer personalized solutions to optimize financial structures and support the sustainable growth of your business.

LEGAL ADVICE IN MINING BUSINESS

We provide comprehensive legal advice for conducting mining business. We assist with the purchase of mining properties, the establishment of mining rights, mining contracts, regulatory aspects, and permits.
